

**Maria Fernanda Lairet**  
**“The other side of the coin”**

By Jonathan Decamps

On Maria Fernanda Lairet’s latest work about the imagery of paper money, the artist get us involved in a conceptual universe of money of different patterns, faces, and ideologies.

Created with a mix media medley, involving photography, graphic arts and other uses of technology, it persuade us on thinking what is behind the rich colors and textures of each peace.

Maria Fernanda Lairet’s latest work poses a contemporary meaning by symbolizing the main aspect to current economic issues and biggest concern on human nature while showing us the other side of the coin.
